## TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 945—TOMATOES GROWN IN FLORIDA LIMITATION OF SHIPMENTS

§ 945.302 Limitation of shipments-(a) Findings. (1) Pursuant to Marketing Agreement No. 125 and Order No. 45 (7 CFR Part 945), regulating the handling of tomatoes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U.S.C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Florida Tomato Committee, established pursuant to said marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001, et seq.) in that: The time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient because the handling of tomatoes grown in the production area is in progress. More orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the handling of tomatoes in the manner set forth below on and after the effective date of this section. Compliance with this section will not require any special preparation on the part of handlers which cannot be completed by the effective date. Reasonable time is permitted under the circumstances for such preparation. The Florida Tomato Committee held an open meeting on January

31, 1957, after giving due notice thereof, to consider supply and market conditions for Florida tomatoes and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held. The provisions of this section, including its effective time, are those recommended by the committee. Information concerning such provisions and effective time has been disseminated among handlers of such tomatoes.

(b) Order. (1) During the period from February 7, 1957, through March 9, 1957, no person shall handle for shipment outside the production area:

(i) Any tomatoes which are "turning" or of greater maturity unless such tomatoes are of a diameter greater than 2½ inches (size 7x7 and larger), and meet the requirements of 85 percent U. S. No. 1, or better, grade; or

(ii) Any tomatoes which are of less maturity than "turning" unless such tomatoes are of a diameter greater than 2½ inches (size 7 x 7 and larger) and meet the requirements of U. S. Combination, or better, grade except that tomatoes of less maturity than "turning" which are of a diameter greater than 2½ inches (size 6 x 7 and larger) may be handled if they meet the requirements of the U. S. No. 2, or better, grade.

(2) During the period from February 7, 1957, through March 9, 1957, no person shall handle for shipment outside the production area:

(i) Any tomatoes which are "turning" or of greater maturity unless such tomatoes are shipped in 8-pound or less, 10-pound, or 20-pound containers, the one-half field crate, or the 60-pound field box; and

(ii) Any tomatoes which are of a lesser maturity than "turning" unless such tomatoes are shipped in a 30-pound container or in any of the containers set forth in subparagraph (4) of this paragraph.

(3) During the period from February 7, 1957, through June 30, 1957, no person shall handle for shipment outside the

"Turning" means that there is at least a definite break in color to yellow or pink at the blossom end but not more than one-half of the surface, in the aggregate, is yellow or pink.

(10) The provisions of \$945.302 (21 F. R. 8534), which was issued on November 2, 1956, are hereby terminated, effective as of the effective time of this section.

1. In \$146a.67 Procaine penicillin in streptomycin sulfate solution \* \* \*, subparagraph (1) (iv) of paragraph (c) Labeling is amended by inserting after the words "18 months" a comma and the words "or 24 months, or 36 months".

a. Paragraph (a) Standards of identity \* \* \* is amended by inserting in the second sentence, immediately after the words "not more than 3 percent if it contains tetracycline", the parenthetical phrase "(not more than 9 percent if it contains sodium metaphosphate as a buffer substance).".

### PRODUCT DESCRIPTION, AND GRADES

§ 52.3481 Product description. "Concentrated grapefruit juice for manufacturing" is the concentrated product obtained from sound, mature grapefruit (Citrus paradisi). The fruit is prepared by sorting and by washing prior to extraction of the juice and the extracted juice is concentrated. The concentrated grapefruit juice is processed in accordance with good commercial practice; and may or may not require processing by heat, subsequent refrigeration, or freezing to assure preservation of the product but is not the product known as "frozen concentrated grapefruit juice." The finished product does not contain any additives except that cold-pressed oil to standardize flavor and chemical preservatives permissible under provisions of the Federal Food, Drug, and Cosmetic Act may have been added.

(a) The Brix value of the finished concentrate shall comply with the following for the dilution factors indicated:

Dilution factor :	Brix value of the finished concentrate		
	Minimum Brix value	Maximum Brix value	
1 plus 3	Degrees 37. 5 44. 5 52. 7 59. 6	Degrees 40.1 48.3 56.0 63.2	

(b) Concentrated grapefruit juice for manufacturing of other dilution factors than "1 plus 3" to "1 plus 6," as indicated in paragraph (a) of this section, shall result in a Brix (upon reconstitution as prescribed by the processor or as prescribed by the label on the container, if labeled) of not less than 10.5 degrees.

§ 52.3482 Grades of concentrated grapefruit juice for manufacturing. (a) "U. S. Grade A for Manufacturing" or "U. S. Fancy for Manufacturing" is the quality of concentrated grapefruit juice which shows no material gelation, reconstitutes properly, and of which the reconstituted juice possesses a reasonably good color; is practically free from defects; possesses a reasonably good flavor; and scores not less than 85 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U. S. Grade C for Manufacturing" or "U. S. Standard for Manufacturing" is the quality of concentrated grapefruit juice which shows no serious

<sup>&</sup>lt;sup>2</sup> Compliance with these standards does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

gelation, reconstitutes properly, and of which the reconstituted juice possesses a fairly good color; is fairly free from defects; possesses a fairly good flavor; and scores not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard for Manufacturing" is the quality of concentrated grapefruit juice that fails to meet the requirements of U. S. Grade C for Manufacturing or U. S. Standard for Manufacturing.

#### FILL OF CONTAINER

§ 52.3483 Recommended fill of container. The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purposes of these grades. It is recommended that each container be filled with concentrated grapefruit juice as full as practicable without impairment of quality.

#### FACTORS OF QUALITY

§ 52.3484 Ascertaining the grade—
(a) General. The grade of concentrated grapefruit juice for manufacturing is ascertained by examining the concentrate and the reconstituted juice; and in addition to considering other requirements outlined in the standards, the following quality factors are evaluated:

(1) Factors not rated by score points.

(i) Degree of gelation.

(ii) Faculty of reconstituting properly.
(2) Factors rated by score points. The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors

are:

Factors:		int
Flavor		4(
Total	score	100

- § 52.3485 Ascertaining the rating for the factors which are scored. The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive. (For example, "17 to 20 points" means 17, 18, 19, or 20 points.)
- § 52.3486 Color—(a) (A-Mfg.) classification. Concentrated grapefruit juice of which the reconstituted juice possesses a reasonably good color may be given a score of 17 to 20 points. "Reasonably good color" means that the color is reasonably bright and typical of properly processed and properly concentrated grapefruit juice and is practically free from browning due to scorching, oxidation, caramelization, or other causes.
- (b) (C-Mfg.) classification. If the reconstituted juice possesses a fairly good color a score of 14 to 16 points may be given. Concentrated grapefruit juice that falls into this classification shall not be graded above U.S. Grade C for Manufacturing or U.S. Standard for U.S. Standard for Manufacturing or U.S. Standard for Manufac

facturing, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the color may be only fairly bright and is typical of concentrated grapefruit juice that is reasonably free from browning due to scorching, oxidation, caramelization, or other causes.

- (c) (SStd-Mfg.) classification. Concentrated grapefruit juice that fails to meet the requirements of paragraph (b) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard for Manufacturing, regardless of the total score for the product (this is a limiting rule).
- § 52.3487 Defects—(a) General. The factor of defects refers to the degree of freedom from juice cells and pulp and from seeds or portions thereof, dark specks, and other defects in the reconstituted juice.
- (b) (A-Mfg.) classification. Concentrated grapefruit juice of which the reconstituted juice is practically free from defects may be given a score of 34 to 40 points. "Practically free from defects" means that there may be present:
- (1) Juice cells only in such amounts as do not materially detract from the appearance or drinking quality of the juice;

(2) Not more than 10 percent free and suspended pulp:

(3) Practically no seeds or portions thereof that could not pass readily through round perforations of \(^1/\eta\) inch in diameter:

- (4) Only such small seeds or portions thereof that could pass through round perforations of ½ inch in diameter as do not materially detract from the appearance or drinking quality of the juice; and
- (5) Other defects that are not more than slightly objectionable.
- (c) (C-Mfg.) classification. If the reconstituted juice is fairly free from defects a score of 28 to 33 points may be given. Concentrated grapefruit juice that falls into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that there may be present:
- (1) Juice cells only in such amounts as do not seriously detract from the appearance or drinking quality of the juice;
- (2) Not more than 12 percent free and suspended pulp;
- (3) Practically no seeds or portions thereof that could not pass readily through round perforations of ½ inch in diameter;
- (4) Only such small seeds or portions thereof that could pass through round perforations of 1% inch in diameter as do not seriously detract from the appearance or drinking quality of the juice; and
- (5) Other defects that are not materially objectionable.
- (d) (SStd-Mfg.) classification. Concentrated grapefruit juice that fails to meet the requirements of paragraph (c) of this section may be given a score of

0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

- § 52.3488 Flavor—(a) (A-Mfg.) classification. Concentrated grapefruit juice of which the reconstituted juice possesses a reasonably good flavor may be given a score of 34 to 40 points. "Reasonably good flavor" means that the flavor is typical of reconstituted concentrated grapefruit juice from properly processed and concentrated grapefruit juice; is practically free from traces of scorehing, caramelization, oxidation, or terpene; and is free from off-flavors of any kind. To score in this classification the ratio of the Brix value to acid shall be not less than 5.5 to 1.
- (b) (C-Mfg.)classification. If the reconstituted juice possesses a fairly good flavor a score of 28 to 33 points may be given. Concentrated grapefruit juice that falls into this classification shall not be graded above U.S. Grade C for Manufacturing or U.S. Standard for Manufacturing, regardless of the total score for the product (this is a limiting rule). "Fairly good flavor" means a normal flavor for reconstituted concentrated grapefruit juice, which flavor may be slightly caramelized or slightly oxidized or may possess traces of terpene, but is free from off-flayors of any kind. To score in this classification the ratio of the Brix value to acid shall be not less than 5 to 1.
- (c) (SStd-Mfg.) classification. If the concentrated grapefruit juice fails to meet the requirements of paragraph (b) of this section a score of 0 to 27 points may be given. Concentrated grapefruit juice that falls into this classification shall not be graded above Substandard for Manufacturing, regardless of the total score for the product (this is a limiting rule).

## EXPLANATIONS AND METHODS OF ANALYSES

- § 52.3489 Explanation of terms and analyses-(a) Reconstituted juice. "Reconstituted juice" means the product obtained by mixing thoroughly one part by volume of the concentrated grapefruit juice with a stated volume of water. For example, a dilution factor of "1 plus 6" means that to one part by volume of concentrated grapefruit juice 6 parts by volume of water are added to produce a reconstituted juice. In the absence of any declared dilution factor the product is diluted with water to a Brix of between 10.5 and 11.5 degrees. Distilled water is used in reconstituting the product for testing flavor.
- (b) Reconstitutes properly. "Reconstitutes properly" means that the concentrate goes into solution readily; and that in approximately 250 ml. of the reconstituted juice, after standing four (4) hours at a temperature of not less than 68 degrees Fahrenheit in a clear glass cylinder (approximately 1½ inches in diameter), there may be a noticeable separation of suspended matter but any resulting zone of greater clarity shall be

definitely turbid and not clear or transparent.

(c) Acid. "Acid" means the percent by weight of total acidity, calculated as anhydrous citric acid. Total acidity is determined by titration with standard sodium hydroxide solution, using phenolphthalein as indicator.

(d) Brix value. "Brix value" is the refractometric sucrose value determined on the thawed concentrate in accordance with the refractometric method for sugars and sugar products, outlined in the "Official Methods of Analysis of the Association of Official Agricultural Chemists," and to which the applicable correction for acid is added:

TABLE I-CORRECTIONS FOR OBTAINING BRIX VALUE 1

- (e) Free and suspended pulp. "Free and suspended pulp" means particles of membrane, core, peel and other similar extraneous material that settle out on centrifuging by the following method:
- (1) Skim floating fruit cells and pulp from the sample of reconstituted juice, and
- (2) Fill graduated centrifuge tubes, of a capacity of 50 ml., with the skimmed reconstituted grapefruit juice and place in a suitable centrifuge. Adjust the speed according to diameter, as indicated in Table II, and centrifuge for exactly 10 minutes. As used herein, "diameter" means the overall distance between the bottoms of opposing centrifuge tubes in operating position. After centrifuging, the milliliter reading at the top of the layer of pulp in the tube is multiplied by 2 to give the percentage of pulp.

R. 2631), upon proposed Marketing Agreement No. 129 and Order No. 111, regulating the handling of Irish potatoes grown in the State of New Jersey. The recommended decision (21 F. R. 7723) of the Acting Deputy Administrator, Agricultural Marketing Service, and the decision (21 F. R. 9596) of the Assistant Secretary of Agriculture setting forth the proposed marketing agreement and order were published in the FEDERAL REGISTER on October 10, 1956, and December 5, 1956. respectively. It is hereby determined, on the basis of the results of the referendum conducted pursuant to the aforesaid refer-

## FEDERAL COMMUNICATIONS COMMISSION

[ 47 CFR Part 3 ]

[Docket No. 11896; FCC 57-106] STANDARD BROADCAST STATIONS

ORDER EXTENDING TIME FOR FILING COMMENTS

1. At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 30th day of January 1957;

2. The Commission has before it for consideration a request for a 30-day extension of time in which to file comments in this proceeding. In support of their request petitioners assert that the proposal to delete § 3.182 (c) of the rules has legal engineering and public interest ramifications; that at least 50 or 60 Class III stations presently provide "primary service" beyond their "normally protected" 2.5 and 4.0 mv/m contours; that they have reason to believe that in some instances such stations may provide the only "primary" nighttime service to a given area and that the proposed deletion of § 3.182 (c) raises a serious question whether such stations would have standing to develop pertinent facts in an evidentiary hearing. Petitioners fur-ther assert that in order that comments filed in this proceeding may be supported by competent engineering studies additional time is needed to prepare appropriate data.

3. The Commission has concluded that the public interest would be served by extending the time for filing reply comments in the above-entitled proceeding.

4. In view of the foregoing: It is ordered, That the time for filing com-

ments in the above-entitled proceeding is extended from February 1, 1957 to March 4, 1957 and the time for filing reply comments is extended to March 15.

Released: February 4, 1957.

MONTANA

NOTICE OF FILINGS OF PLAT OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC

JANUARY 30, 1957.

Plats of survey of the lands described below will be officially filed in the Land Office at Billings, Montana, effective at 10:00 a.m. on March 7, 1957.

## MONTANA PRINCIPAL MERIDIAN

T. 7 N., R. 51 E., Sec. 13: Lot 3;

Sec. 14: Lots 8 and 9;

Sec. 23: Lot 3:

Sec. 24: Lots 7 and 8.

Area surveyed: 128.57 acres.

Plat of survey accepted April 22, 1955.

The above described land is an island in the Powder River in eastern Montana, approximately 25 miles above the mouth of the river. It was not included when the original survey was made for this township. The island supports a good stand of native grasses and cottonwood trees, and is used for winter grazing and feeding area for local ranches. The island has no agricultural value, due to its periodic flooding and dissected surface.

T. 21 N., R. 58 E.,

Sec. 26: Lot 7; Sec. 27: Lots 7 and 8.

Area surveyed: 82.71 acres.

Plat of survey accepted April 22, 1955.

The above described land is an island " in the Yellowstone River approximately eight miles southwest of Sidney, Montana. It was omitted from the original survey for this township. This island has a dissected surface and supports a heavy stand of brush and cottonwood trees. It does not have an agricultural value due to these surface characteristics and the difficult access presented by the island's location in the middle of the river. It has no recreational value due to lack of demand and dangerous access. It is now used for grazing.

T. 1 S., R. 26 E.,

Sec. 2: Lot 12; Sec. 11: Lots 9 and 10.

Area surveyed: 55.92 acres.

Plat of survey accepted September 21, 1955.

The above described land is an island in the Yellowstone River, opposite Josephine Park in Billings, Montana. The island was not included in the original survey of this township. It is now covered with a heavy growth of cottonwood trees and brush and is used for grazing purposes. The island is subject to flooding and due to this flooding tendency and difficult access presented by the river, the land has no value for industrial or agricultural purposes. It is not suitable for recreational use due to its dangerous access. The island is used for grazing during periods of low water when the island is accessible to livestock.

No application for these lands will be allowed under the homestead, desertland small-tract, or any other nonmineral public-land law, unless the lands have already been classified as valuable, or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any existing valid rights and the requirements of applicable law, the lands in the foregoing townships are hereby opened for filing of applications in accordance with the following:

a. Applications under the non-mineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

1. Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

2. All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean conflict, and others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a.m. on March 7, 1957 will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a.m. June 6, 1957 will be governed by the time of filing.

3. All valid applications under the nonmineral public land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on June 6, 1957, will be considered as simultaneously filed at that hour. SMALL TRACT CLASSIFICATION ORDER

JANUARY 31, 1957.

1. Pursuant to authority delegated to me by the California State Supervisor, Bureau of Land Management, under Part II, document 4, California State Office, dated November 19, 1954 (19 F. R. 7697), I hereby classify under the Small Tract Act of June 1, 1938, as amended (43 U.S. C. 682a), the tracts of public land in Butte County, California, described below, for lease and sale for residence purposes only:

T. 20 N., R. 6 E., M. D. M., Sec. 29, S½N½.

The lands comprise 64 small tracts and contain a total of 160 acres. Seven applications from persons entitled to preference under 43 CFR 257.5 (a) have been filed on the land.

- 2. Classification of the above-described lands by this order segregates them from all appropriations, including location under the mining laws, except as to application under the Small Tract Act and applications under the mineral leasing laws.
- 3. The lands are accessible from Feather Falls via asphalt-paved road which passes through the SW1/4NE1/4. Several dirt roads also pass through the lands. The lands are located approximately 3 miles southwest of Feather Falls and 20 miles northeast of Oroville.

The lands involved are moderately sloping to rolling. The elevation ranges from 1,750 to 2,250 feet above sea level.

The vegetation consists of an interspersion of scattered young timber, live and black oak woodland and ceanothusmanzanita brush.

There are two or three small springs on the land and domestic water could be developed easily from wells.

- 4. The lands will be leased and sold in tracts of 21/2 acres each, more or less, approximately 330 x 330 feet in size, and described as aliquot parts of the section. The tracts will be subject to all existing rights-of-way. Rights-of-way, 50 feet in width, for street and road purposes and for public utilities will be reserved along the north boundaries of the S½S½S½ N½ and S½N½S½N½. All minerals in the lands will be reserved to the United States.
- 5. Leases will be issued to qualified applicants for a term of three (3) years and will contain an option to purchase in accordance with 43 CFR 257.13. The appraised value of the tracts is \$200.00 each. The annual rental is \$10.00 per tract, payable in advance for the full lease period. Lessees who comply with the general terms and conditions of their leases will be permitted to purchase their tracts at the price indicated above providing that during the period of their leases they either (a) construct the improvements specified in paragraph 7 or (b) file a copy of an agreement in accordance with 43 CFR 257.13 (d). Leases will be renewable at the discretion of the Bureau of Land Management and the renewal lease will be subject to such terms and conditions as are deemed necessary in the light of the circumstances and the regulations existing at the time of renewal. However, a lease will not be renewable unless failure to construct the required improvements is justified under the circumstances and nonrenewal would work an extreme hardship on the lessee.
- 6. Persons who have previously acquired a tract under the Small Tract Act are not qualified to secure a tract at the drawing unless they can make a showing satisfactory to the Bureau of Land Management that the acquisition of another tract is warranted in the circumstances.
- 7. The improvements referred to in paragraph 5 above must conform with health, sanitation, and construction requirements of local ordinances and must. in addition, meet the following standards:

The dwelling house must be suitable for year-round use, on a permanent foundation and with a minimum of 400 square feet of floor space. It must be built in a workmanlike manner out of attractive materials properly finished. Adequate disposal and sanitary facilities must be installed. Conventional concrete cement slab, or masonry foundations are acceptable. Concrete piers are not acceptable as foundations.

8. The lands are now open to filing of drawing-entry cards (Form 4-775) only by persons entitled to veterans' preference. In brief, persons entitled to such preference are (a) honorably discharged veterans who served in the armed forces

of the United States for a period of at least 90 days after September 15, 1940, (b) surviving spouse or minor orphan children of such veterans, and (c) with the consent of the veteran, the spouse of living veterans. The 90-day requirement does not apply to veterans who were discharged on account of wounds or disability incurred in the line of duty or the surviving spouse or minor children of veterans killed in the line of Drawing-entry cards (Form duty. 4-775) are available upon request from the Manager, Land Office, California Fruit Building, Room 1000, 4th and J Streets, Sacramento 14, California.

Drawing-entry cards will be accepted if filled out in compliance with the instructions on the form and with the abovenamed official prior to 10:00 a.m., June 7, 1957. A drawing will be held on that date or shortly thereafter. Any person who submits more than one card will be declared ineligible to participate in the drawing. Tracts will be assigned to entrants in the order that their names are drawn. All entrants will be notified of the results of the drawing. Successful entrants will be sent copies of the lease forms (Form 4-776), with instructions as to their execution and return and as to payment of fees and rentals.

9. All valid applications filed prior to January 31, 1957, will be granted the preference right provided for by 43 CFR 257.5 (a).

10. Inquiries concerning these lands shall be addresed to Manager, Land Office, California Fruit Building, Room 1000, 4th and J Streets, Sacramento 14, California.

> JEAN M. F. DUBOIS, Acting Officer in Charge, Northern Field Group. Sacramento, California.

GREAT SWEET GRASS OILS, LTD.

ORDER SUMMARILY SUSPENDING TRADING

FEBRUARY 1, 1957.

In the matter of trading on the American Stock Exchange in the \$1.00 par value capital stock of Great Sweet Grass Oils Limited, File No. 1-3827.

I. The \$1.00 par value Capital Stock of Great Sweet Grass Oils Limited (hereinafter called "registrant") is listed and registered on the American Stock Exchange, a national securities exchange (hereinafter called "the exchange").

II. The Commission on October 19, 1956, issued its order and notice of hearing under section 19 (a) (2) of the Securities Exchange Act of 1934 (hereinafter called "the act"), and on October 24, 1956, issued its amended order and notice of hearing under the act to determine at a hearing to be held November 13, 1956, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months, or to withdraw, the registration of the Capital Stock of registrant on the exchange for failure to comply with section 13 of the act and the rules and regulations thereunder, in that the Commission had reason to believe that the reports filed by registrant on Form 8-K and Form 10-K were false and misleading in certain respects set forth in said orders. On October 31, 1956, the Commission issued its second amended order and notice of hearing under section 19 (a) (2) of the act restating the allegations in the original and amended orders and including allegations that the Commission had reason to believe that the registrant's current report on Form 8-K for the month of December, 1955, and amendments thereto, and that registrant's annual report on Form 10-K for its fiscal year ended December 31, 1955, and amendments thereto, were false and misleading in additional respects set forth in said order. On November 16, 1956, the Commission issued its third amended order and notice of hearing under section 19 (a) (2) of the act restating the allegations in the original and amended orders and including allegations that the Commission had reason to believe that the registrant's current report on Form 8-K for the month of August, 1955, was false and misleading in certain respects set forth in said order, and that the Form 8-K report for the month of December. 1955, and the Form 10-K report for the fiscal year ended December 31, 1955 were false and misleading in additional respects set forth in said order. On January 23, 1957, the Commission issued its order summarily suspending trading pursuant to section 19 (a) (4) of the act in said securities on the exchange for the reasons set forth in said order to prevent fraudulent, deceptive and manipulative acts or practices from January 24, 1957 to February 2, 1957, inclusive.

III. On November 7, 1956, counsel representing registrant requested a postponement of the hearing under section 19 (a) (2) of the act in order to enable him to prepare for the hearing. Pursuant to this request, the Commission on November 7, 1956, issued its order postponing the date of said hearing to November 26, 1956. Said hearing has commenced but has not yet been concluded by Commission order or decision.

IV. The Commission has reason to believe that the false reports filed by registrant as alleged in the orders and notices of hearing referred to in paragraph H and the relationship between registrant and Kroy Oils Limited, also subject to an order issued concurrently herewith under section 19 (a) (4) of the act, and also subject to an order and notice of hearing under section 19 (a) (2) of the act, which hearing has been consolidated with the hearing referred to in paragraph III, are such as to cause widespread confusion and uncertainty in the market for registrant's shares. Under the circumstances recited in this order, the Commission is of the opinion that it would be impossible for the investing public to reach an informed judgment at this time as to the value of registrant's securities or for trading in such securities to be conducted in an orderly and equitable manner.

V. The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on the exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive, or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the act and the Commission's Rule X-15C2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange.

It is ordered, Pursuant to section 19 (a) (4) of the act that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive, or manipulative acts or practices for a period of ten days from February 3, 1957 to February 12, 1957, inclusive.

By the Commission.

KROY OILS, LTD. . . .

ORDER SUMMARILY SUSPENDING TRADING

FEBRUARY 1, 1957.

' In the matter of trading on the American Stock Exchange in the 20-cent par value capital stock of Kroy Oils Limited, File No. 1–3679.

I. The 20-cent par value Capital Stock of Kroy Oils Limited, an Alberta corporation (hereinafter called "registrant"), is listed and registered on the American Stock Exchange, a national securities exchange (hereinafter called "the exchange").

II. The Commission on November 2, 1956, issued its order and notice of hearing under section 19 (a) (2) of the Securities Exchange Act of 1934 (hereinafter called "the act") to determine at a hearing to be held on November 20. 1956, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months, or to withdraw, the registration of the Capital Stock of registrant on the exchange for failure to comply with section 13 of the act and the rules and regulations adopted thereunder, in that the Commission has reason to believe that a current report for the month of May, 1956, on Form 8-K, filed by registrant with the Commission was false and misleading in certain respects set forth in said order. On January 23, 1957, the Commission issued its order summarily suspending trading of said securities on the exchange pursuant to section 19 (a) (4) of the act for the reasons set forth in said order to prevent fraudulent, deceptive or manipulative acts or practices for a period of ten days from January 24,

1957 to February 2, 1957, inclusive.

III. On November 7, 1956, counsel representing registrant requested a postponement of the hearing under section 19 (a) (2) of the act in order to enable him to prepare for the hearing. Pursuant to this request, the Commission on November 7, 1956, issued its order postponing the date of said hearing to November 26, 1956. Said hearing has commenced but has not yet been concluded by Commission order or decision.

IV. The Commission has reason to believe that the false report filed by registrant as alleged in the order and notice of hearing referred to in paragraph II and the relationship between registrant and Great Sweet Grass Oils Limited, also subject to an order issued concurrently herewith under section 19 (a) (4) of the act, and also subject to an order and notice of hearing under section 19 (a) (2) of the act, which hearing has been consolidated with the hearing referred to in paragraph III, are such as to cause widespread confusion and uncertainty in the market for registrant's shares. Under the circumstances recited in this order, the Commission is of the opinion that it would be impossible for the investing public to reach an informed judgment at this time as to the value of registrant's securities or for trading in such securities to be conducted in an orderly and equitable manner.

V. The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on the exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive, or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the act and the Commission's Rule X-15C2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange.

It is ordered, Pursuant to section 19 (a) (4) of the act that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive, or manipulative acts or practices for a period of ten days from February 3, 1957 to February 12, 1957, inclusive.

II. The Commission having reasonable cause to believe:

A. That the terms and conditions of Regulation A have not been complied with in that—

1. The securities were offered in jurisdictions not named in the Notification as required by Item 1 thereof.

2. The issuer failed to file reports of sales as required by Rule 224 of Regulation A.

B. The statement in the offering circular under "The Corporation" to the effect that Automatic held the exclusive franchise for the Greater New York City area to employ and use the Park-O-Mat automatic car positioner, as well as the right to reenfranchise other users of the device in this area, whereas Automatic has never had such right, title, interest in said positioner or inventions; and

# UNITED STATES TARIFF COMMISSION

HATTERS' FUR

REPORT TO THE PRESIDENT

FEBRUARY 4, 1957.

The Tariff Commission today submitted a report to the President on the developments in the trade in hatters' fur since the modification on February 9, 1952, of the trade-agreement concession thereon granted in the General Agreement on Tariffs and Trade (GATT). This report was made pursuant to paragraph 1 of Executive Order 10401 of October 14, 1952 (17 F. R. 9125). That order prescribes procedures for the periodic review of escape-clause actions

with a view to determining whether a concession that was modified or withdrawn may be restored in whole or in part without causing or threatening serious injury to the domestic industry concerned. If an informal review under paragraph 1 indicates that conditions have so change as to warrant it, a formal investigation (including a public hearing) to determine the facts is made under paragraph 2 of the order. The present report is the fourth report on hatters' fur under paragraph 1 of Executive Order 10401.

The Commission advised the President that the conditions of competition with respect to imported and domestic hatters' fur have not so changed during the past year as to warrant the institution of a formal investigation under the provisions of paragraph 2 of Executive Order 10401.

Copies of the Commission's report are available upon request as long as the limited supply lasts. Requests should be addressed to the United States Tariff Commission, Eighth and E Streets NW., Washington 25. D. C.

CALIFORNIA

INTRASTATE FREIGHT RATES AND CHARGES

At a session of the Interstate Commerce Commission, Division 2 held at its office in Washington, D. C., on the 23d day of January A. D. 1957.

It appearing that a petition dated December 13, 1956, has been filed on behalf of the Atchison, Topeka and Santa Fe Railway Company and other common carriers by railroad operating to, from and between points in the State of California, in interstate and intrastate commerce, averring that in Ex Parte No. 196, Increased Freight Rates, 1956, 298 I. C. C. 279, the Commission authorized carriers, subject to the Interstate Commerce Act, parties thereto, to make certain increases in their rates and charges for interstate application throughout the United States; and that increases under such authorizations have been made:

It further appearing that the petitioners allege that the Public Utilities Commission of California, by its order dated December 11, 1956, has refused to authorize or permit petitioners to establish for the intrastate transportation upon their railroads in California increases in freight rates and charges corresponding to those authorized by this Commission and made by petitioners for application on interstate traffic in the proceeding above cited which refusal causes and results in undue and unreasonable advantage, preference, and prejudice as between persons and localities in intrastate commerce, on the one hand, and interstate commerce, on the other hand, and in undue, unreasonable and unjust discrimination against interstate and foreign commerce, in violation of section 13 of the Interstate Commerce Act:

It further appearing that there have been brought in issue by the said petition rates and charges made or imposed by authority of the State of California;

And it further appearing that the Public Utilities Commission of California on January 9, 1957, filed an answer to petitioners' petition:

It is ordered. That, in response to the said petition, an investigation be, and it is hereby, instituted, and that a hearing be held therein for the purpose of receiving evidence from the respondents hereinafter designated and any other interested parties to determine whether the rates and charges of the common carriers by railroad, or any of them. operating in the State of California, for the intrastate transportation of property, made or imposed by authority of the State of California, cause or will cause, by reason of the failure of such rates and charges to include increases corresponding to those permitted by the Commission for interstate traffic in Ex Parte No. 196, supra, any undue or unreasonable advantage, preference, or prejudice, as between persons or localities in intrastate commerce, on the one hand, and interstate or foreign commerce, on the other hand, or any undue. unreasonable, or unjust discrimination against interstate or foreign commerce in violation of section 13 of the Interstate Commerce Act, with the exception of certain commodity and class rates as shown in Appendix A below, and to determine what rates and charges, if any, or what maximum or minimum, or maximum and minimum, rates and charges shall be prescribed to remove the unlawful advantage, preference, prejudice, or discrimination, if any, that may be found to exist:

It is further ordered, That all common carriers by railroad operating within the State of California, which are subject to the jurisdiction of this Commission, be, and they are hereby, made respondents to this proceeding; that a copy of this order be served upon each of the said respondents, and that the State of California be notified of the proceeding by sending copies of this order and of said petition by registered mail to the Governor of the said State, and to the Public Utilities Commission of California at San Francisco, Calif.:

It is further ordered, That notice of this proceeding be given to the public by depositing a copy of this order in the office of the Secretary of the Commission at Washington, D. C., for public inspection, and by filing a copy with the Director, Division of the Federal Register Washington, D. C.;
